**Committee Room #:** Annex 169  
**Timeframe:** Thursday @ 11 AM  
**Message is for:** Your Representative House Leadership Committee Members  
**Message:** **Oppose HB 147, The Government Does Not Need to Mandate Healthcare Decisions of Adults. Forced Vaccinations to attend College is a violations of people's personal medical rights.**  
**Optional:** Email, visit, or write Your Legislators, Committee Members, Sponsors, Leadership, or the Governor  
**Bill Info:** **Type of Issue:** Liberty Issue: Personal Freedom – Medical Rights  
**Brief Bill Explanation:** This bill if it became law would force those who attend any Post-Secondary Education (Public or Private) to get Vaccinations the CHFS deem necessary. There is a religious exemption, but how many people are going to think of that and why should we even have to. Those advocating for it will say it is required of children attending public schools, so this is just the next logical step (to the state running your life). However, the requirement for children violates parental rights. The other argument is this is a public health concern and therefore the individual must submit to the state. Bottom line is those that are vaccinated are protected, they can't get it from those that are not, unless the vaccine doesn't work, which in that case all this is a pointless effort, except we have set up a system where people believe they have to do what the state says to do something and that we don't even have control over own bodies when it comes to what we want being put in it.
